## **Introduction to Karmic Astrology**

The effects of past life experiences can carry over into your current life, accounting for interests, habits, even phobias which would defy explanation by conventional methods.

This report examines possible past life connections using astrological methods. It is not intended to be taken as a complete interpretation of your birth chart; it looks at your chart from only one perspective.

It is written in simple language, avoiding the use of astrological terms as much as possible. For the interest of students of astrology, relevant astrological references are made at the top of each section.

There are certain factors which indicate a need to seek further answers through past life regression. If you find reference to this within your chart, you may discover that your spiritual growth will be enhanced by using this method. (Note: Individuals with a number of these indicators in the chart have probably already experienced spontaneous regressions.)

Not all charts will indicate a need for regressions. If your report does not indicate such a need, then it is most likely that discovering your past lives through regression is of little interest to you this time around.

## Chapter 1: Most Important Prior Life Experiences

In traditional astrology, the Twelfth House represents your self-undoing, hidden matters and the subconscious process. It is believed that we carry karmic memories in our subconscious, and that these subconscious memories can undermine our current life efforts.

When we remove the walls created by subconscious fears and guilt, we find that the path to personal transformation lies beyond.

If, in your chapter you find a number of descriptions of planets placed in your twelfth house, consider exploring your hidden self through past life regression.

### *12th house cusp in Gemini*

You have the ability to keep your creative ideas secret, which may or may not be beneficial in this lifetime. You are constantly communicating with yourself. You may keep a secret diary or you may talk to yourself or talk in your sleep.

Look for a significant prior lifetime as a writer, carnival worker, entertainer, communications worker or salesperson. Gemini on the cusp of the twelfth house indicates a prior lifetime where you lived by your wits.

### *Gemini 12th House, Cancer Rising*

You are primarily interested in nurturing, family relationships and your home. Family and tradition is very important to you. You are protective of your family and your immediate circle. You may have difficulty in determining what should and should not be communicated to those outside your home environment. This will depend upon the lessons learned in your prior life.

### *Saturn in 12th House*

You chose a solitary prior life, as a hermit or in a cloistered environment, so you would not have to face the harsh realities of the outside world. In this life, you hide your feelings of inadequacy by avoiding solitude, putting on a smile to the public. Although you are outgoing and sociable, you may have difficulties dealing with authority figures.

**KARMIC LESSON:** Once you overcome the fear of being alone, you may find that you actually enjoy your own company, especially when working on a specific goal or project.

## Chapter 2: Saturn (The Great Teacher)

The source of many of our self-imposed restrictions can be found in the placement of the planet Saturn. The location of Saturn in a horoscope represents the area of life where we have to learn the greatest lessons. It is through these lessons that we grow and improve.

Just like your least liked teacher in school, Saturn's lessons require hard work and self-discipline. And like the lessons from that teacher, Saturn's lessons are not easily forgotten. The lessons you learn help you to find order and security in your current life.

When a lesson from a prior life was not learned, you can experience inexplicable guilt or self-restriction. Exploration of the unlearned lessons of Saturn can free you to use all of your natural talents.

### *Saturn in 12th House*

You have a serious interest in the psychology of people and can dedicate yourself to menial work or creative endeavors. You have a strong yearning for spiritual fulfillment and may find great solace in the service of humankind.

You may have spent a prior life in prison, a convent (monastery) or as a recluse. You may have been the victim of treachery of others, which forced you into hiding. If you were in a position of power, then karmic guilt can render you immobile when you have the opportunity to make advancement to a position resembling your previous one.

On the positive side, you are able to use your inner strength to learn your karmic lessons and develop your spiritual nature. You seek the company of others out of love of humanity, instead of the fear of loneliness.

On the negative side, you may fear success, recognition and public displays of emotion. Your body may express your prior life's fears in the form of allergies, immune system dysfunction or as phobias. The karmic issues must be resolved in order for you to experience health and success.

THIS PLACEMENT INDICATES A STRONG NEED FOR PAST LIFE REGRESSION.

*Saturn Square Venus:*

A sense of duty was the reason for maintaining partnerships in prior lifetimes. This time, you find it difficult to accept the gift of love and consequently may feel very lonely. When you learn to appreciate your loved ones for whom they are, you will diminish feeling of isolation. Much of your stress in this life comes from relationships, either family or work, and you tend to direct that stress inward.

*Saturn Sextile Sun:*

Duty to yourself and to others has been balanced in prior lifetimes, making you self-confident and assured in this one. Your past life memories help you to be a natural leader. Your leadership always has a practical nature, expressing your well-thought analysis of any problem. You work hard for all that you receive.

### Chapter 3: Jupiter (Your Karmic Gifts)

Personal karma is not necessarily negative. You bring to this life certain talents and interest which enable you to expand your horizons. Often overlooked for its karmic value, the placement of the planet Jupiter in your chart can tell you about your karmic gifts.

Jupiter describes spiritual rewards as well as the area of your current life where you may experience material gains.

The lesson of Jupiter is best described as the acceptance of the law of karma. The rewards you reap in this life time come from your prior life's good deeds, and your future benefits (this life or another) are the rewards of your present fair dealings and generosity.

#### *Jupiter in Leo*

Your generosity as a great leader in a past life has given you a generous, dignified and confident nature.

Your greatness in this life will come through using your leadership abilities to serve humankind in an unselfish manner. Your past life as a teacher or school master is expressed in your love of children and interest in their growth, both physical and spiritual.

#### *Jupiter in 2nd House*

You can make fortunate decisions in business matters. What seems to be luck in getting opportunities is actually good business sense brought over from a prior life, where you were involved in either real estate, farming or manufacturing of practical, necessary products.

#### *Jupiter Conjunct Pluto:*

You have experienced many transformations and upheavals in prior lifetimes. This has given you a great deal of inner strength and power. You are very strong-willed. This time, you can use your physical and psychic resources to bring about healing in yourself and others. You have such a strong will that it is easy to forget that other people have ideas and opinions as well. Temper your strength with tolerance.

#### *Jupiter Sextile Uranus:*

Your prior life situations gave you opportunities to make radical changes for yourself and as part of a group. Your memories from prior times leaves a feeling of restlessness, a desire for change. You can make changes by being generous with your talents and providing inspiration to others. Use your good judgment to promote our original ideas, knowing that there is a time and place for everything.

## Chapter 4: Nodes of the Moon (Your Karmic Doorways)

The point on a horoscope chart called the North Node of the Moon is not actually a planet, but can be thought of as a doorway from your current life to your future. And, its opposite point (the South Node of the Moon) can be thought of as a doorway from your past life to your current one.

These two sensitive points can show you what goals you are concerned with in this life and what habits from prior lives are holding you back from reaching those goals.

### *North Node of the Moon in Leo*

In prior lives, you promoted social reform and brotherhood, often at the expense of close personal relationships. Creativity was repressed in favor of work for the common good.

Your past life's goals were based on bettering the human condition, yet you remained so detached from real people that the goal became an intellectual exercise.

You have possibly spent past lives as a revolutionary, social worker, academic, or even a hermit.

You still take pride in being different from other people, and often will maintain your individuality at all costs.

In this lifetime, you are reluctant to share anything you have created with others for fear of rejection or because of your basic shyness. You may hide your insecurities by appearing detached and intellectually superior.

In order to maintain the balance between your two karmic doorways, you need to tap the creativity within yourself and focus that creative energy on ways to make social or artistic contributions to humanity. Let down your old barriers and you will discover that you will be admired for your individuality and your creativity.

## Chapter 5: Planets in Retrograde (Reversed Energies)

Planets in a horoscope chart which are marked as being in retrograde motion, hide or reverse the true energy of that planet.

From a perspective of past life experiences, this usually means that some experience in a prior lifetime was so negative that the individual refuses to use that planetary energy in any manner.

### *Venus Retrograde*

Affection and love can be elusive for you. You may find it difficult to express love, or, you may feel that real love is lacking in your life.

In a prior life, you may have used the power of love or your own attractiveness for selfish reasons, or, you may have judged others by looks alone.

Your lesson in this life is to open your heart to others without attaching conditions. Find the real beauty in all of us. Give of yourself without the expectation of reward.

Your birth chart interpretation is based on the positions of the planets at the time of your birth. For the benefit of students of astrology, these positions, along with other technical information, are listed below:
